WELCOME TO AWAKEN GENERATION

“Our dream has always been to see a worship culture flourish across this nation, where worshipers are not only empowered and equipped in their musicianship but also in their heart of worship and character. Our own lives were radically transformed when mentors came alongside us to speak into our lives and call out our destiny. We pray that at Awaken Generation – within a thriving community of creativity, mentorship and His presence – that you will discover your unique musical gift, nurture your talent and grow in your ministry and leadership potential.”

HIGHLIGHTS

HOLISTIC CURRICULUM

At Awaken Generation, students are trained in **HEART AND CRAFT**. Our unique curriculum not only teaches comprehensive tools & skills for musicianship but marries it with training in the heart of worship, and applying kingdom principles to build character.

ONE-TO-ONE MENTORING

Receive personalised **ONE-TO-ONE MENTORING** in the area of skill and ministry from our team of full-time mentors. We believe in investing in relationships and our goal is to see you awaken to the greater purpose of your gifts and to step into your calling.

AWAKENING TOURS

Join the team as we release the gospel through music in **OUTREACHES AND MISSIONS** locally and regionally. We believe in the Antioch call of this nation and in the raising up and sending out of music missionaries to the nations.

COURSE OUTLINE

Awaken Generation runs as a **ONE-YEAR, PART-TIME** worship & music mentorship programme covering both musicianship and ministry components specifically catered for the worship ministry context. Students choose one stream to major in and have access to all available electives.

ENDORSEMENTS

SIDNEY MOHEDE INDONESIA

*International Worship Leader & Network Pastor
Jakarta Praise Community Church*

There is such a hunger in understanding worship and worship music in our generation today. Ultimately, worship is not a 'course' to be studied and discussed but a lifestyle to be daily lived, an experience of being in His glorious presence and an encounter that will forever transform us from the inside out. I am so grateful to friends like Calvin and Alarice who will lead and mentor a new generation of worshippers through Awaken Generation.

BARNABAS CHONG SINGAPORE

*Pastor
Christ Methodist Church*

AG is more than an organization, it is a movement! A movement started at a critical juncture in the life of church and society to raise up a generation of young people who love the Lord, who would serve Him with passion wherever He places them and who would bring about a prophetic and godly impact in their generation. Calvin and Alarice are the right people to spearhead this movement as a couple who truly demonstrates humble leadership, passionate service, spiritual gifting and fervent love for the young generation. I am thankful to God for raising up AG for a time like this!

CALVIN TAN SINGAPORE

*Pastor
St. Hilda's Church*

AG has greatly benefited Adele (vocal stream student, 2015). She has learnt more about singing and has become more aware of her vocal instrument. Moreover, she has been able to pass on her knowledge to the younger worship leaders in the local church. The fact that AG focuses on both the skill-set and spiritual elements of being a worship leader has been instrumental in how she has grown over the year. I would recommend the course to any pastor wanting to build their existing worship environment and members of the worship team.

NELI ATIGA AUSTRALIA

*Senior Pastor & International Worship Leader
Every Nation Church Brisbane*

In my experience with worship ministries across the board, there are two main concerns that arise. Firstly, it's the unawareness of the links between worship ministry and evangelism. Secondly, it's the lack of ongoing mentorship which empowers worship leaders. My good friends, Calvin and Alarice, are definitely up for the task of being used to awaken "musicianaries" for the long haul! I'm so excited for them and I encourage my fellow pastors to seize this opportunity to be with AG; your church will be better for it.
